New Plans for the 9th International Orthodontic Congress

We are all conscious of how COVID-19 has affected our private and professional lives.

As you may have expected, the WFO and Japanese Orthodontic Society (JOS) have had no alternative but to review the logistics of the 9th IOC in Yokohama.

Although we will not be able to meet in-person in Yokohama the GOOD news is that we will bring Yokohama to you in an exciting new format.

The 9th IOC will be a virtual 24/7 online "on demand conference". From your home or office you will be able to:

- ★listen to and interact with the IOC scheduled speakers
- ★view the 700+ posters and / or abstracts.
- ★communicate virtually with trade exhibitors.

For those who register it involves - no travel costs - no hotel expenses - no time away from home or office - a win-win.

The Local Organizing Committee is working hard with the Conference Organizers, and there is exciting work in progress.

Further details will be regularly posted on the 9th IOC website. With updates coming over the next few week, please continually check the website so you do not miss out on the opportunity to be part of the first virtual International Orthodontic Congress.

We look forward to you joining us in virtual Yokohama !!

Dr. Allan R Thom
President of the WFO

Dr. Yanheng Zhou
President of the APOS

Dr. Keiji Moriyama
President of the JOS

Dr. Takashi Ono
Chairman of the 9th IOC
